

Epson PowerLite® 7850p

The wireless wonder that networks like a pro

The Epson PowerLite 7850p takes high-performance portables to a whole new level, with out-of-the-box networking capability, PC-free presentations, and the ability to operate with or without a hard-wired video connection. IS personnel will appreciate its easy monitoring and maintenance, while presenters will enjoy its remarkable functionality.

Even with these notable features, you won't have to sacrifice image quality. This powerful portable provides 3500 ANSI lumens and XGA resolution for exceptional clarity and detail.

The Epson PowerLite 7850p can address virtually any presentation requirement. With optional lenses available, it offers enhanced positioning flexibility. And, it provides monitor out capability, plus multiple image correction tools. For easy setup and operation, this accommodating performer includes both vertical and horizontal keystone correction. And, no matter where it is situated, the projector offers a unique feature designed to assist theft prevention, which can be a costly impact to any business. Its enhanced security feature was engineered to guard against unauthorized users and disable the projector through a convenient password protection function.

A multi-faceted product, the Epson PowerLite 7850p delivers superior power and versatility–from the world leader in high-performance projectors. And, it's backed by legendary Epson reliability.

Convenient networking capability with EasyManagement™ technology

- Offers information on projector status via:
 - EMP Monitor software utility (included)
 - Web browser—no special software required!
 - SNMP (Simple Network Management Protocol) with HP OpenView plug-in available
- Allows easy monitoring of source status, power status, lamp status and resolution input status
- Provides e-mail notification via SMTP to alert administrators immediately of any troubleshooting issues
- Enables secure access via password protection features including web
- Provides real-time status information and projector error detection

PC-free presenting with improved Epson EasyMP™

- PCMCIA card slot available to save presentations and run your presentations from the projector
- More animation and PowerPoint® functionality than ever before
- High-speed image transfers

Wireless presenting at its best

- 802.11b wireless technology (WiFi certified)
- Two wireless modes for individual or LAN users
- No video cable required—laptop and projector can be positioned independently for optional viewing and control
- Page up and page down feature via wireless remote
- Allows for a seamless presentation with less down time connecting cables when there are multiple presenters

Ultra bright 3500 ANSI lumens, weighs only 12.8 lb

- Remarkable brightness that's great for conference rooms
- Three XGA (1024 x 768) 1.0" Epson high-aperture LCDs for evenly distributed color across the screen
- 700:1 contrast ratio for blacker blacks and whiter whites

Easy installation, setup and operation

- Enhanced security function, including password protection, to disable the projector from unauthorized users
- Image correction tools for flexible setup and installation
 - Keystone correction (±40° vertical, ±20° horizontal)
 - QuickCorner[™] to display perfectly square images
 - WallShot[™] for instant color correction when projecting on a colored surface
- Great connectivity including computer, Component Video (BNC), DVI, S-Video, and Composite Video; dedicated audio for each signal
- Low fan noise for undisturbed presentations
- Multiple lens options for installation flexibility

Comprehensive Epson service and support (free for the duration of the two-year warranty)

- 90-day bulb warranty for added dependability
- Epson Road Service program provides a replacement projector, typically within 24 hours
- Epson PrivateLinesM service provides a dedicated toll-free support line available from 6 a.m. to 6 p.m. PST Monday - Friday (Calls are answered live, typically in about one minute.)
- International warranty in over 45 countries
