

M2+

Performance to go.

Knowledge is power. Share yours.

Whether you're presenting or simply capturing information in a group meeting, you won't want to be without the ASK Proxima® M2+. 1400 powerful lumens flood any room with brilliant color and unparalleled clarity. Integrated data, video and audio eliminate the need for add-on modules as well as extra costs.

Overachiever, under budget

We squeezed a full-featured projector into a convenient package that won't blow your budget. Overachieving? Maybe. Affordable? Absolutely. A great investment for you and your company, the M2+ raises the bar without raising the price. It's a powerful collaboration tool that makes meetings efficient and more portable than ever.

Business tool and traveling companion in one

The must-have M2+ combines seamless connectivity, exceptional image quality and rich multimedia performance in an intuitively designed solution. The result? You get the best of all worlds in a smaller, more powerful projector that enables you to present anywhere. What's more, the M2+ is compatible with the InFocus® LiteShow® wireless solution so you can project in almost any environment without all the cables.

Changing the world one meeting at a time

An ideal partner to your notebook PC, the M2+ completes your suite of personal, cutting-edge digital tools. And, if you're in the mood to share, it's a nice addition to your company's projector pool. Weighing less than 2.4 pounds/1.1kg it can go wherever you go, making it easy to share information at a moment's notice. A built-in M1-DA connector gives the M2+ seamless digital-to-digital connectivity. And it's HDTV compatible—you can reap the benefits of high definition images anytime and project them with ease.

Whisper-quiet operation allows your audience to stay focused.

Ultra portability lets you project your ideas anywhere.
